1) 工作

例题: Always telling the truth is the most important consideration in any relationship.

诚实 -> 同事间帮助

Honest people are more likely to be assisted by their colleagues. To be more specific, it is well-acknowledged that frankness is the foundation for colleagues to cooperate, propose suggestions and give favor to each other, and thus will contribute to a strong bond; however, under no circumstances will a dishonest employee be favored by others in workplaces, who instead will be isolated from a large social cycle.

2) 生活

例题: You have long been friends with someone. If they do something that you don't like, should you still be friends with him or her?

做了不喜欢的事情 -> 生活上不愿意互相帮助

When a friend does something unsatisfying, others are less likely to render assistance to him in daily life. To be more specific, if a person deceives others, always gets late and even has aggressive behaviors, he will be isolated, not to mention being helped warmly by others in life; however, a person doing things favored by others tends to receive more assistance from friends in daily life.
